• Macro for all of us! • Hiding the Sticky note from password boxes! • Toggle between the invisible/normal state of the macro! • More macro scripts and features! Keyboard Add-Ons : Invisible : Hidden, Sticky note Lock: Hold lock Clear Lock: Clear the lock Reset Timer: Reset time Remove From All Logs: Remove this keylogger from all log files Remove From Password: Remove this keylogger from all passwords Hide Password: Hide the password field Hide all passwords: Hide all passwords Hide all passwords and passwords: Hide all passwords and passwords. Macro for all us! It is very hard to run a normal Windows with the default auto-lock time that is activated by every new Windows instance. The sticky note is one of the most annoying Windows elements that get in your way as it is showing important information that is closely related to your daily work. Keyboard Add-Ons are designed to address these shortcomings by offering you the ability to hide the sticky note from all password boxes. Now you can run a normal Windows session without the sticky note and just use your keyboard to hide it or to show it. Just look for the invisible keyboard macro in your Keyboard section. There are two macros: Hidden and Invisible. Hide all passwords and passwords macro: Press Alt + Shift + F4 Clear the password and passwords field Save the file Go to the next log file and check if the password and passwords field is now hidden Go to the last log file Remove from password boxes macro: Press Alt + Shift + F4 Go to the last log file and check if the password and passwords field is now hidden Go to the next log file and check if the password and passwords field is now hidden Go to the last log file Hide the password and passwords field Go to the last log file Go to the next log file and check if the password and passwords field is now hidden Go to the last log file Hide the password and passwords field Press Alt + Shift + F4 Go to the last log file Go to the next log file and check if the password and passwords field is now hidden Go to the last log file Remove all passwords macros: Press Alt + Shift + F4 Go to the last log file and check if the password and passwords field is now hidden Go to the next log file and 2edc1e01e8

Elmansy Anti Virus

Anti-Virus & Spyware Tool to Remove Shortcut and VBS Banks of professionals have spent years collecting and studying all the types of malicious software that can infect your computer. They have learned how these types of malicious programs operate and how they enter your computer, and they have finally come up with one universal solution for their removal. It's Elmansy Anti-Virus, a free and very useful utility for removing Shortcut and VBS viruses. With Elmansy Anti-Virus you can easily remove the Shortcut virus, the VBS virus, and other kinds of nasty viruses that can infect your USB flash drives, portable drives and external hard drives. Once Elmansy Anti-Virus is on your PC, it will start by scanning your USB drives and automatically remove all the Shortcut virus. You can then click on the next button and Elmansy Anti-Virus will clean your portable drives as well. For complete removal of the virus, Elmansy Anti-Virus can also remove it from external hard drives. Additionally, Elmansy Anti-Virus will inform you in real time of each and every malicious program that has found in your computer. So, when you are sure that everything has been removed, you can simply remove the virus from your computer. You can use Elmansy Anti-Virus on either Windows 2000, XP, Vista, Windows 7 and Windows 8. Elmansy Anti-Virus Screenshots: The following screenshot shows that Elmansy Anti-Virus is able to remove the Shortcut virus from your USB drive. How to use Elmansy Anti Virus: The process of using Elmansy Anti-Virus to clean your USB drive is very easy and simple. Connect your USB drive to your computer. Double click on the EXE file that is provided with Elmansy Anti-Virus. When the utility runs, it will scan the USB drive, remove the Shortcut virus and inform you if there are any other viruses found on your system. If the Shortcut virus has been completely removed, you can simply click on the Finish button to remove the virus from your system. If you want to make sure that everything is fine, you can launch your anti-virus software again to perform a complete scan of your computer. *Note that Elmansy Anti-Virus can be run on your system from
